Projects

- **ChatSpace**
  Developed a real-time chat application featuring user authentication and message notifications for an enhanced chat experience.
  Live Site
- **TaskHub**
  Built a comprehensive task management system that enables users to create, edit, and track tasks, seamlessly deployed on Vercel.
  Live Site
- **URL Shortener**
  Created a URL shortening service that allows users to generate short URLs and track clicks with a simple user interface.
  Live Site
- **Conversa**
  Developed an interactive chatbot application designed to enhance user experience through natural language processing. Implemented using React and integrated with Google Gemini API.
  Live Site
- **Trivio**
  Developed an interactive full stack quiz application with category and difficulty filters, featuring a dynamic leaderboard for tracking high scores.
